

# North Carolina Individual Student Report Fall 2020

Credit by Demonstrated Mastery—Phase 1

Student ID:  
Student Name:

Process Date:  
School Name:

This *Individual Student Report* provides information about your student's participation in the assessment for Credit by Demonstrated Mastery Phase 1. Your student's test score is reflected in this report by a status of either "Phase 1 Met" or "Phase 1 Not Met".

## NC Math 1 End-of Course Test Status

Credit by Demonstrated Mastery (CDM) is the process by which a public school unit may award a student credit in a particular course without requiring the student to complete classroom instruction for a certain amount of seat time. To complete the CDM requirements, students must demonstrate mastery through a multi-phase assessment, consisting of (Phase 1) a standard examination and (Phase 2) an artifact (special project) which requires the student to apply knowledge and skills relevant to the content standards. Mastery is defined as a student's command of course materials at a level that demonstrates a deep understanding of the content standards and application of knowledge. Additional CDM information can be found at <https://www.dpi.nc.gov/students-families/enhanced-opportunities/advanced-learning-and-gifted-education/credit-demonstrated-mastery%C2%A0>.

Student's Score

Description

Phase 1 Met

Students with a score of Phase 1 Met:

- Obtained the minimum scale score necessary to demonstrate mastery of the content standards measured on this assessment.
- Are required to complete the requirements for Phase 2 (established locally by the public school unit).
- Will not receive "credit" for the course until Phase 2 is completed successfully.

*Students who do not successfully complete Phase 2 will be required to enroll in the course to receive credit and will retake the associated assessment upon completion of the course.*
